The following combination of subjects is permitted:—

(i) I.A.—English, Bengali (Vernacular) and any three of the following subjects:—History, Logic, Elements of Civics and Economics, Mathematics, and a Second Language, viz., Sanskrit or Bengali or Persian or Arabic.

N.B.—Candidates may also take up, if they so desire, one additional subject out of the last named group of five subjects, provided they have not already taken the subject. The additional subject so taken shall be considered as the optional subject under rule 8A of the University Regulations for the I.A. Examination.

(ii) I.Sc.—English, Bengali, Mathematics, Physics and Chemistry.

(iii) B.A.—English, Bengali (Vernacular) and any two of the following subjects:—Mathematics, History, Economics, Mental and Moral Philosophy, and a Second Language, viz., Bengali or Sanskrit or Persian or Arabic.

(iv) B.Sc.—Physics, Chemistry and Mathematics.

2. Students who seek admission to the College must apply in the prescribed Admission Form which can be had from the College office on personal application or by sending a stamped cover. A limited number of women students is also admitted to the College.

3. Students who have passed the University Examinations creditably can be admitted to the College. Students who come with transfer certificates from other colleges can only be admitted if their attendance and progress in studies at the college where they last studied, are considered satisfactory. Plucked candidates are required to produce the "Admit Card" and the "Cross List".

4. Students who do not reside with parents or legal guardians must live in one of the College Hostels. Permission to live with local guardians can be granted only in exceptional cases.

5. Arrangements have been made to divide the students into groups and place them under the effective and intimate guardianship of their teachers. Any change of address must immediately be notified to the College office.

6. Students must obey the rules and discipline of the College including those of the College Union. Absence from College Examinations without leave is a breach of College discipline. No student can be promoted to a higher class or sent up for a University Examination unless he has appeared at College Examinations and has been regular in attendance.

7. Attendance at games or organised physical exercises under the guidance of the Physical Instructor is compulsory.

8. **Hostels.**—There are two hostels attached to the College—one for the Hindu students and another for the Muslim students. (*a*) The messing charge in the Hindu Hostel is Rs. 12 per month (including the establishment and light charges). In case of a deficit, the amount spent in excess is shared equally by the boarders. (*b*) In the Muhammadan Hostel the messing charge is Rs. 9 per month. In addition the charges for electric consumption for lights are shared equally by the boarders. (*c*) The monthly seat rent is Rs. 2 in both the hostels. (*d*) Two of the students belonging to the educationally backward classes (i.e., scheduled castes) can be given rent-free seats in the Hindu Hostel out of a grant received from the University of Calcutta. (*e*) Students seeking admission to the hostels should apply to the Superintendents personally. The health of the boarders has all along been satisfactory.

The candidates nominated shall be grouped in communities.

8. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will deposit into a Government treasury in Bengal or Reserve Bank of India, Calcutta, a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary, Public Service Commission, Bengal, by the date fixed. Under no circumstances will the fee paid be refunded. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will be held in two centres, viz., Calcutta and Dacca, if sufficient candidates are forthcoming. The candidates should clearly mention in their application forms the centre where they wish to sit. The dates and place of the examination will be communicated to the candidates separately.

9. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below :—

(i) Bengali, (iii) Urdu,
(ii) Hindi, (iv) Nepali,

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

13. **Medical Examination.**—As soon as the results of the examinations are ready, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. Regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

14. **Availability of old question papers.**—These question papers may be purchased from the Book Depot, Writers' Buildings, Calcutta, or from the Publication Branch, Bengal Government Press, Alipore, at Re. 1 for a complete set of questions for one year.

[Sabhyatār Saṁkaṭ. Danger of Civilization. An address read on the occasion of the poet's 81st birthday celebration at Santiniketan in Vaisakh, 1348 B. S. The author attempts to point out how he lost faith in the western civilization and especially in the English people whom he once held in high esteem as a great nation with lofty ideals of civilization, when he came to realise the sad and wilful neglect on their part to do anything for the uplift of India during their long rule in the country. He draws attention to the conditions which have led to tremendous progress in the Soviet Russia and Japan in the modern times and to the helpless condition of India which suffered under the weight of the English domination like China under foreign domination without being able to derive the benefits expected from the Western civilization. In the end he expresses a hope that men like Andrews may yet uphold the name and prestige of the English nation by their own greatness, that the English will have to leave India one day, or other and that a saviour would soon come for India's deliverance.] Pages 11. RESOLUTION—No. 2048Medl.

Calcutta, the 13th August 1942.

With their resolution No. 315Medl., dated the 2nd February 1937, the Government of Bengal promulgated the Statutes regarding the General Council and State Faculty of Ayurvedic Medicine, Bengal, for the restoration and development of the Ayurvedic system of treatment with special reference to the question of teaching of that system under proper supervision and control. The Ayurvedic Council and Faculty came into existence on the 14th April 1937. In section 9 of the Statutes the term of office of the members of the Council was fixed for three years. The reconstitution of the Council was, therefore, due in April 1940. But owing to various difficulties, *e.g.*, the delay in the registration of Ayurvedic practitioners, etc., the term of office of the Council had to be extended from time to time. Certain proposals were subsequently made to Government for the modification of the constitution of the Council, and as it was considered desirable that the next Council should be formed according to the modified constitution, if any modification was found to be necessary after examination of those proposals, the term of office of the members of the Council had to be further extended. The different proposals for the revision of the constitution of the Ayurvedic Council have been examined by Government, and after careful consideration of the views and suggestions of the Ayurvedic Faculty and also of eminent Ayurvedic practitioners and associations, the Government of Bengal are pleased to make certain modifications in section 2 of the Statutes referred to above which should stand thus:—

"2. *Constitution.*—The said Council shall consist of the following members, namely:—

(*a*) A President to be nominated by the Provincial Government and a Vice-President, who shall be a registered Ayurvedic practitioner, to be elected by the members of the Council from amongst themselves.

(*b*) One registered Ayurvedic practitioner from each of the five divisions of Bengal elected by the electors of registered Ayurvedic practitioners (as defined in section 28) from each division.

(*c*) One member who may or may not be an Ayurvedic practitioner nominated by the Calcutta Corporation.

(*d*) Four Ayurvedic practitioners of Calcutta elected from the Calcutta electorate of registered Ayurvedic practitioners (as defined in section 28).

(*e*) One member who may or may not be an Ayurvedic practitioner nominated by the Calcutta University.

(*f*) One member who may or may not be an Ayurvedic practitioner nominated by the Dacca University.

(*g*) One representative of each Ayurvedic College with Hospital affiliated to the Council up to the standard of the highest examination to be elected by the (*i*) members of the Governing Body, (*ii*) Teachers and (*iii*) Physicians of the institution.

(*h*) Five registered Ayurvedic practitioners to be elected by the heads and teachers of all *tols* affiliated to the Council up to the standard of the highest examination at least one year before the election.

(i) Four persons who may or may not be Ayurvedic practitioners nominated by the Provincial Government.

(j) One representative each of the Bengal Sanskrit Association, Calcutta, and the East Bengal Saraswat Samaj, Dacca.

(k) The Registrar (*ex-officio*).

(l) Two persons other than Ayurvedic practitioners co-opted by the rest of the Council before the election of the Vice-President."

A note on the Pupil's materials in the Drawing Class.

It appears (though it is not very clearly put in the syllabus) that work in classes 3 and 4 is in pencil and pastel. In class 4 water colour is introduced.

Pencil work requires a drawing book containing white drawing paper, a decent pencil, a piece of good India rubber, and two or three sharp knives in the class. At present a great deal of the drawing is done in ordinary khatas, with cheap pencils, having blunt points, and a wet finger is used as a substitute for India rubber.

Pastel work requires a book of coloured paper, one box of about 10 colours for each child, and a stock of the deeper colours in *dur* or *demidur* crayons for general use. These deeper colours are rather more expensive than the usual, costing from 1*d*. to 6*d*. a stick; they are unobtainable in India; they have to be obtained from London or direct from Le France in Paris. Without these colours it is impossible to give a correct representation of many objects, e.g., the shadows on a leaf or fruit require a deep blue-green which is not contained in the standard boxes of the pupils.

To get good work in water colour it is absolutely necessary that the pupils should use good colours—and the right colours. It is usually considered best for the teacher to have the colours in tubes and to press out small dabs of the colours needed on to the pupil's palette. The ordinary paint boxes sold in stationery shops contain more colours than the child should use, and those of a very bad quality.

In short the pencils, pastels and colours must be supplied by the school; not by the individual. This is not only cheaper for the parent, but is also an essential condition of good work.

I am directed to acknowledge receipt of report of the Honorary Committee for the management of the Zoological Garden for the year 1940-41, received with your letter No. 189, dated the 21st/22nd July 1942 and to congratulate the Committee and particularly those members who have given personal services in connection with the supervision of the garden on the success of their efforts to make it attractive to the public and to win their support. The thanks of Government are due to the Corporation of Calcutta for their contribution to the funds of the garden and to the ladies and gentlemen referred to in the report, who have made donations or presented animals to the garden.

Staff.—The following is a list of the Superior Staff of the Garden at the nd of 1940-41:—

Acting Superintendent.—Mr. R. N. Bose, G.B.V.C.

First Assistant Superintendent.—Khan Sahib S. M. Yaqub.

Second Assistant Superintendent.—Mr. N. Mukherji, G.B.V.C., F.Z.S., .L.S., F.R.H.S.

Store-keeper.—Babu Jugal Kishore Roy.

Clerk.—Babu Tarak Chandra Chatterjee.

Accountant.—Babu Gobardhan Ch. Auddy.

Gate Clerk.—Babu Bepin Behari Chatterji.

The office and menial staff of the Garden at the end of 1940-41 comprised:—

Office staff:—

1	Salutri.	1	Gate Clerk.
1	Record Keeper.	2	Assistant Gate Clerks.

Ticket Painter.

Menial staff.—

1	Jamadar.	1	Head Durwan.
23	Keepers.	14	Durwans.
2	Bhistees.	1	Head Mali.
1	Cook.	1	Gate Mali.
1	Food Distributor	4	Malis.
1	Carpenter.	4	Cooly Sardars.
1	Mason.	10	Coolies.

Blacksmith.

In addition temporary men were engaged as required.

Acquisitions.—Owing to War conditions no animals or birds were acquired from European countries or from America.

Local purchases consisted of a few small animals, such as Cat-bears, Golden Entellus monkeys. Some Hawfinches and Humes Pheasants were also obtained.

Births.—Several mammals were bred. Among the most important were two female tiger cubs, a male Eland, a Rufous Kangaroo, several Raccoons and a Yellow Baboon.

Various foreign and local birds and Himalayan Pheasants bred and most of them were reared successfully, viz.:—

1	Crested Curassow.	2	Tamborine Pigeons
1	Zebra Finch.	1	Pied Imperial Pigeon.
2	Argus Pheasants.	2	Amherst Pheasants.
1	Cheer Pheasant.	1	Gold Pheasant.

1 Silver Pheasant.

Presentation.—Numerous presentations both in mammals and birds were received during the year under review, the most valuable being a pair of Giraffes presented by Mr. Abdul Rashid and his brother Mr. Abdul Rahman Cocker in memory of their father, the late Mr. Abdul Wahid, O.B.E., of Nairobi. Unfortunately the male specimen broke its off hind leg during the voyage and had to be destroyed.

The Garden bore the cost of freight, crates, and insurance premium, etc., amounting to £160.

Sale.—Owing to the War few sales could be effected. Freights were heavy and shipping accommodation scarce. Dr. Wegeforth during a visit to Calcutta arranged to purchase a young pair of Hippopotami born in the Garden for the San Diego Zoo. They also purchased four pairs of Cat-bears.

Exchange.—The difficulty of obtaining shipping space owing to the demands for War purposes has restricted our activities to a large extent. The uncertainty of giving and obtaining delivery has hampered the free exchange of birds and animals with other Zoological Gardens, and has also resulted in fewer sales and purchases to and from dealers.

Deaths.—The death rate was normal during the year. The Garden, however, sustained a most regrettable loss in the death of one of its oldest and most valued exhibit, the female Elephant "Begum". She was purchased in Jalpaiguri in June 1905, and lived in the Garden for nearly 36 years. She was very popular with the visitors, especially with the children who will miss her very much.

Other important deaths during the year were those of a Puma, a Chimpanzee and a Llama.

Gardens.—We are happy to report that the condition of the Garden was well maintained and the Gardens again proved themselves a popular institution.

Flowers.—The display of flowers was good and the *malis* are to be congratulated.

Some of our double Petunias were made the object of a special visit to the Gardens by visitors from outside Calcutta.

Improvements.

Sarnomoyi House.—This house was extended towards the north, the extension forming a beautiful aviary. Messrs. Martin & Co. undertook the work at a cost of Rs. 3,133.

Two covered shelters for birds were constructed in the aviary at a cost of Rs. 215.

The whole frontage of the aviary was covered with interlinked wire-netting of ½" mesh supplied by Messrs. Playfair & Co. at a cost of Rs. 573 and the roof was covered with ½" mesh Hex wire-netting from the stock in the Garden.

The aviary is now inhabited partly by birds from the cages inside the house and partly by newly-acquired birds.

New Rhino Enclosure.—The American Consul-General requested the Zoo Committee to give temporary housing to a full grown one-horned Indian Rhinoceros pending its shipment to Washington Zoo. This animal sustained very severe injuries during the journey and it seemed doubtful when it arrived whether it would survive.

The Honorary Secretary called in aid Mr. A. D. MacGregor, the Principal of the Bengal Veterinary College, Belgachia and it was very largely due to his skill and attention that the animal eventually recovered.

To provide for its suitable accommodation until such time as it can be forwarded to America the enclosure on the south-western side of the Hippo enclosures was renovated and strengthened.

The following petty works were undertaken during the year under report:—

Committee Room.—The roof of this building was leaking and in urgent need of repair. It was treated with reinforced Malthoid roofing "C" grade with Floatine gravel finish (5 layers) by Messrs. Lyall Marshall & Co. who guaranteed the work for 8 years.

Gayal and Sambhur Enclosures.—The retaining wall round the inner side of these enclosures was dismantled and reconstructed with 3" soling 6" lime concrete brick-on-edge cement pointing.

Three new sluices were also constructed after dismantling the old ones.

Most of the Houses were lime and colour-washed.

Hermitage.—The outer walls of No. 4, Alipur Road (Hermitage), were colour-washed.

Benches.—All the benches in the Garden were re-painted with Green Bowranite which in our experience resists the evil effects of the rains very satisfactorily.

Roadside Stalls.—The Government of Bengal, Department of Communications and Works, pointed out that the existing four roadside stalls appeared unsightly and out of keeping with the surroundings and invited our opinion regarding their improvements.

The Honorary Committee of Management agreed with the Government view and expressed their willingness to improve the existing stalls or if necessary, to erect new shops on plans to be agreed in consultation with the Superintending Engineer to the Government of Bengal. Considerable correspondence passed, but unfortunately meetings which had been arranged were infructuous and at the end of the financial year no improvement had been effected. The present stalls are condemned alike by all who are connected with them, not least the stall-holders, and it is hoped that an improvement in their accommodation and appearance will shortly be effected.

Construction of underground latrine near Pig Enclosure.—In 1936, a request was made to the Meteorologist, Alipore Observatory, to allow the service latrine of the Zoological Garden situated near the Pig Enclosure to be connected with the underground latrine in the compound of the Observatory, which was acceded to by him.

In this connection an agreement was executed for the lease of a portion of Government land measuring 65 s. ft. at a rent of Rs. 3 per annum. This rent is paid by the Garden.

The Committee of Management approved and sanctioned estimates amounting to Rs. 246 and Rs. 1,017 to enable the work to be taken in hand and informed the Executive Engineer, Suburban Division, who would be responsible for its completion. Owing to departmental difficulties that officer could not take up work and the matter was referred by him to the Executive Engineer, Bengal, Central P.W.D. There had been numerous complaints with regard to this latrine and it is hoped that the work will shortly be completed.

Begumbari land.—In October 1940, an enquiry was made by the Controller of Telegraph Stores, Alipore, whether a portion of the land at Begumbari by the side of Tolly's Nullah opposite the Telegraph Stores Yard could be let out to them for the contemplated extension of the Telegraph Stores. The Committee were unable to agree to the suggestion. They pointed out that similar requests had been made in the past when the necessity for the Garden to retain this land and the uses to which it was put had been stated and approved.

Primarily it was essential to retain it as an area where exhibits could be isolated in the event of an outbreak of infectious disease.

Air Raid Precautions.—The following precautions have so far been taken:—

(i) Formation of a well-organised band of A.R.P. personnel among the staff.
(ii) The preparation of a list of carnivora in order of importance with a view to reducing them to such a number as can be contained behind two sets of bars, when necessity arises.
(iii) Repairs to carnivora houses.
(iv) Extension of wall of Garden compound.
(v) Sinking of a tube-well in Begumbari.
(vi) Strengthening of Gubbay House.

Finance.—The financial position of the Garden so far as this year is concerned is satisfactory. This is due to the fact that most rigid economy was observed by cutting major expenditure in buildings and purchase of animals and birds.

A detailed statement of receipts and expenditure will be found in Appendix "A". An increase of Rs. 978-8 will be seen in the entrance receipts over the figures of the previous year.

Visitors.—The following is a comparative statement of visitors and receipts for the last four years:—

Years.		Visitors.	Receipts. Rs.	a.
1937-38	...	936,744	58,664	9.
1938-39	...	1,038,678	65,009	8.
1939-40	...	1,027,649	64,235	8.
1940-41	...	1,043,347	65,214	0.

The Committee desire to convey their thanks to the Corporation of Calcutta for having again sanctioned the exemption of the Garden from the payment of rates for the year 1940-41.

A large number of children under four years of age, and many school children attended by their teachers, were admitted free to the Garden. In addition there were free days when 58,153 persons were admitted to the Garden without payment. This represents a sum foregone in entrance fees of over Rs. 3,600.

A detailed statement of the number of visitors and receipts appears in Appendix B.

The Committee wish to convey their appreciation and thanks to those members of the public as well as to members of the Garden who contributed towards the satisfactory results achieved during the year under review.

A list of ladies and gentlemen who made gifts to the collection will be found in Appendix C. There were in addition many offers to present animals to the Garden, but these offers could not always be accepted either because the particular species was already sufficiently well-represented, or owing to want of accommodation.

The Committee also desire to express their thanks to the British India Steam Navigation Company for kindly conveying animals belonging to the Garden free of charge.

No military band was available to play in the Gardens and the Committee were reluctantly compelled to discontinue what had been in the past a great attraction to the Public.

The Committee again record their indebtedness to those members of the public who sent old or broken down horses to the Zoological Gardens, where they are destroyed under the most humane conditions.

G. D. McNAIR,
President.

E. A. PATERSON,
Honorary Secretary.

Superintendent's Report.

I have the honour to submit the following comparative table showing the stock on the 31st March, in the collection during the last four years:—

1939-40	...	418	2,125	50
1940-41	...	408	2,009	35

The decrease in the mammals is due to a policy of not overcrowding the existing enclosures and steps were taken to thin out a number of deer and other mammals.

3 Satin Bower Birds.

To Adelaide Zoo (by sale):—

70 Rhesus Monkeys.
6 Bonnet Monkeys.

To Taronga Zoological Park Trust, Sydney (by exchange):—

2 Sambar Deer.
3 Spotted Deer.

The most regrettable deaths during the year were:—

2 Llamas.
1 Gayal.
1 Elephant.
1 Hyacinthine Macaw.
1 Rhea (White variety).
1 Barasingha Deer.
1 Burchell's Zebra.

Ordinary cases were dealt with in the dispensary maintained in the Gardens and in more severe cases, the Principal, Bengal Veterinary College, was asked for his assistance.

Amongst the commoner forms of disease the following may be mentioned:—

Infectious diseases.—Stray cases of Tuberculosis were found amongst the antelopes and deer. This diagnosis was confirmed by the Raymond Research Laboratory. This disease was found to be less common amongst the primates and still less in the carnivora.

Post-mortem examinations were held on all important animals and doubtful cases were sent to the Principal, Bengal Veterinary College, for his examination, to whom thanks are due for his practical advice and suggestions whenever approached.

GOVERNMENT OF BENGAL

DEPARTMENT OF PUBLIC HEALTH AND LOCAL SELF-GOVERNMENT.

Public Health.

NOTIFICATION.

No. 1520P.H.—19th August 1942.—The Thirty-sixth Annual Report of the Bengal Smoke Nuisances Commission for the year 1941, is published for general information.

By order of the Governor,

T. I. M. NURANNABI CHAUDHURI,
Secy. to the Govt. of Bengal.

Thirty-sixth Annual Report of the Bengal Smoke Nuisances Commission for the year 1941.

At the close of the year under report the Commission was composed as follows:—

(1) H. P. V. Townend, Esq., C.I.E., I.C.S., Commissioner of the Presidency Division, President.

(2) A. C. Hartley, Esq., I.C.S., Magistrate and Collector of Howrah.

(3) Dr. B. Mukherjee, M.B., D.P.H., Director of Public Health, Bengal.

(4) Engineer-Commander A. E. F. Orchard, R.I.N., Principal Engineer and Ship Surveyor to Government of Bengal.

(5) J. B. McBride, Esq., O.B.E., M.I.MECH.E., Chief Inspector of Factories, Bengal.

(6) J. M. Grant, Esq., Manager, Clive Jute Mills, Calcutta (representing the Bengal Chamber of Commerce).

(7) R. J. Oliver, Esq., A.C.S.M., A.I.M.M. (representing the Bengal Chamber of Commerce).

(8) Nirmal Chandra Ghose, Esq., (representing the Bengal National Chamber of Commerce).

(9) Jogendra Nath Mandal, Esq. (representing the Corporation of Calcutta).

(10) N. M. Irvine, Esq., B.SC. (Edin.), M.I.MECH.E., Chief Mechanical Engineer, Port Commissioners, Calcutta (representing the Commissioners for the Port of Calcutta).

(11) M. G. Bhagat, Esq. (representing the Indian Chamber of Commerce), Calcutta,

(12) Kassim A. Mohamed, Esq. (representing the Moslem Chamber of Commerce), Calcutta.

B. N. Mitter, Esq., Chief Inspector and Secretary.

Factory smoke.

The Bengal Smoke Nuisances Commission commenced its activities in 1906 for the abatement of smoke emission within the areas controlled by the Calcutta and Howrah Municipalities. The average emission of black smoke recorded per chimney was at that time 13·1 minutes per hour, to-day it stands at ·08 minute. Much of this success is due to the generous co-operation of the factory owners with the Commission. It is realised that smoke is coal and in its prevention lies a gilt-edged investment.

General control by the Commission.

The Commission which represents all the interests concerned in the abatement of smoke nuisance held 12 meetings in the year under review. It maintained contact as in the past, with the various smoke departments, fuel, engineering and research institutions in Europe and America and kept abreast of the latest progress in the scientific use of fuel towards the abatement of industrial smoke. It is feared that this may not be possible in 1942 owing to war difficulties.

During the year action was taken as under:—

Offences reported for departmental action—2,121.

Offences reported by telephone for departmental action—506.

Inspection and tests of installation—3,736.

Statutory warnings served—[illegible]

Prosecutions—39.

Convictions—36.

In addition to the above preventive action 776 steam ships and 480 locomotives were reported to the local marine and railway authorities for their usual departmental action which in all cases was readily undertaken.

The two Smoke Observers appointed in October 1938 keep the area under the control of the Commission including the river under constant observation. Since then the Inspectors, having thus been relieved of observation duty, were engaged in inspection duty, and in imparting technical advice to the offenders.

The Court Inspector had again to be engaged to conduct contested cases, in which the Inspectors have to appear as witnesses because the official records of smoke observation are not accepted as evidence by the Courts. The maximum fine imposed for offences under the Act was Rs. 90 and the minimum Rs. 10.

Of the 39 prosecutions which were launched (Appendix II) three cases had to be withdrawn because the requirements of the Act were complied with in the meantime.

It may be again stated the policy of the Commission is to give advice and not to be unduly repressive.

Observation of smoke.

A constant watch on smoke nuisance is kept from the Central Smoke Observatory which is equipped with a telephone so that the owner or manager of an offensive chimney may be called up and the emission of smoke of prohibited density immediately brought to his notice. Observation of locomotives, steamers, launches, road-rollers and minor industrial plants are taken locally. The total number of observations made during the year was 7,221 against 8,749 of the previous year.

Plans for furnaces, flues and chimneys.

Well designed plants are necessary for smoke prevention and fuel economy and it is not only obligatory but convenient to consult the Commission whose wide experience is always at the disposal of the public. Smoke prevention must begin at the furnace and not at the chimney top. Properly proportioned furnaces, flues and chimneys increase the power of the plant and reduce the overload and fuel cost and on the other hand avoid trouble in complying with the requirements of the Smoke Nuisances Act.

During the year the Commission examined and approved 118 plans of which 94 were made in the office of the Commission, covering nearly all types of industrial furnaces. The number of plans approved by the Commission since 1916, when the Act was amended to govern construction of or alteration to plants, now totals 1,719. The low average emission of smoke per chimney (Appendix I) has been attained through this most important measure.

The total fees received during the year on account of plans, etc., are detailed below:—

For making plans—Rs. 820.

For approval of plans—Rs. 868.

For final inspection of chimneys, etc., and grant of permission—Rs. 1,356.

Complaints.

The Commission cannot with its small staff regularly keep in touch with every case of smoke nuisance within its controlled area of approximately 80 square miles. It has again been indebted to the public for bringing cases to its notice by means of complaints. During the year 75 complaints were received against 83 in the preceding year. The Commission once more assures the public that on receipt of a complaint prompt and careful enquiry is made. Relief is given wherever possible and the Commission endeavours to see that industry is not subjected to unreasonable demands.

Reduction of smoke by electricity and gas.

Electricity.

The appliance of electricity and gas to meet domestic requirements has an important bearing on the general comfort and the health of the public and it is pleasing to record that there is an increased demand by property owners for smokeless appliances as these contribute to the city's health.

Electric appliances both for commercial and domestic use should be encouraged as permanent remedies for atmospheric pollution.

The Calcutta Electric Supply Corporation state as follows:—

"During the year 1941 they have signed agreements for the supply of electricity to large works and mills in their licensed areas to a total of approximately 8,000 H.P. of which approximately 4,000 H.P. is required to replace existing steam turbines and steam engines. In addition to the foregoing there have been a number of smaller works and factories which have adopted electrical drives in place of steam engines during the past year."

Gas.

The contribution made to the solution of the city's smoke problem by the Oriental Gas Company, Limited, increases every year. They report a continued increase in the installation of cooking and water heating appliances for domestic purposes and they have fitted up several large blocks of flats with gas appliances during the year. They state that during their last financial year ended 30th June 1941 a nett total of 1,045 gas consuming appliances were fixed. Of these 409 were domestic appliances, many of them replacing chulas in densely populated areas in Calcutta. Considering the restricted building of new flats, etc., the figure is satisfactory. Six hundred and thirty-six industrial appliances were fixed and the demand increases. Large numbers of furnaces, ring burners, soldering iron heaters, etc., have been fixed and the workers appreciate the better conditions as compared to those where solid fuel has been used. Gas heated [illegible] boilers and drying ovens have replaced some where smoke used to be produced in the past.

The value of gas as a smokeless fuel in a convenient form is readily appreciated by property owners and residents and, in many cases, gas appliances have been installed to take place of coal "chulas" and solid fuel boilers.

Inspectorate.

On Mr. R. Grant, Chief Inspector and Secretary, volunteering for military service on 2nd August 1941, Mr. B. N. Mitter, Senior Inspector, was appointed to officiate in his place in addition to his own duties, and was assisted by Mr. B. Mukerjee, Inspector of Smoke Nuisances.

Conclusion.

The Commission records its grateful thanks to the various smoke fuel and engineering research departments. Thanks are also due to those local owners, managers and engineers whose co-operation and valuable assistance have greatly helped the Commission, and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

Chief Inspector and Secretary.
